

TACA

TALK ABOUT CURING AUTISM

CERTIFICATE OF APPRECIATION

In recognition of outstanding and dedicated care of children with autism, this certificate is proudly presented to:

DR. SONIA MCGOWIN

3/30/18

Date

Lisa Ackerman, Executive Director

Dr. Sonia is the Gut Guru! She caught some abnormalities in our sons stool that explained so much about why he was struggling with certain foods. We had done years of gut healing prior but I guess we were missing this piece and she nailed it! Also, Donovan loves her and calls her My Sonia. As a mom, when I see my child develop such a strong bond with a doctor who is working so hard and diligently to heal our kids, I know that we've made the best choice possible in adding her to our team.

Dr Sonia is wonderful. She has amazing insight and has a true gift of discerning the problem. She is a talented and effective practitioner even doing distance consults. Because of her help and care Micah is thriving and not fatigued all the time. He no longer has auditory processing issues and his pans is under control. So thankful that I met Dr Sonia at the TACA conference in Orange County last year. Since starting to work with her life is better than I thought it could be. Healing is real and possible and I am so grateful for the help in this last stretch of healing. Dr Sonia you are a true blessing.
